SENIOR DIV 4—Paul Havens—1433

The city record for high series has been held by Donna Conners since 2005 with a score of 829. This Spring the record was broken, not once, but three times. These women were recognized for their outstanding performance on the lanes.

Kerry Moreland ~ 831

January 19, 2010

285-247-299

Julie Haley ~ 844

February 20, 2010

286-300-258

Sandra White ~ 846

April 15, 2010

279-268-299

Association Awards for the 2009-2010 Season were recognized at the Fall Membership Meeting following the luncheon, such as high city averages for men, women, youth and senior men and senior women, along with 800s, 700s for women and youth and 300 games. Those receiving these awards were named in the October 2010 issue of *News to Spare*.

Delegates were elected to attend the 2011 USBC Annual Meeting in Grapevine, Texas in June and the 2011 TSUSBC Annual Meeting in Round Rock, Texas. Greater Houston receives 13 delegates on the national level and going to Grapevine, Texas to represent

(Continued on page 8)

CAN BOWLING STAND UP TO OTHER SPORTS?

(Presented at the GHUSBCA Fall Membership Meeting by Donna Hall, President)

As a member of GHUSBC you share something in common with over 12,000 people in the city of Houston. In fact, you share something in common with over two million people who belong to USBC. Years ago, that number would have been quite a bit larger, but that is a whole other story for another day! During the 1970's bowling was in its heyday, membership was at its peak and bowling centers were full with double shifts. Fast forward 40 years, over 70 million people bowled at least once in the past year which makes bowling still the sport with the largest participation in the world.

Yes, bowling is a sport! We know, but it is up to us to get those other millions of people to recognize it for the sport it is today. When you think of sports, excluding bowling of course, what is the first one that comes to mind?

Well it is football season, so let's talk a little football. It can be compared to bowling and no one would dare question whether or not it was a sport especially here in Texas. Texans love their football teams! Football is played as a team; the players wear jerseys with their name on it just as bowlers are members of a team. Some bowlers still wear shirts with their names on it, but our youth bowlers and many of the pros wear jerseys. Both sports have a team captain and require special equipment and special shoes. Football has a line of scrimmage, while bowling has its own special line, the foul line. A bowling ball is out of play when it is in the gutter, but in football, it is out of bounds when the players do not keep it between the lines. There are 1696 players during the season in the NFL, but we bowlers have them outnumbered. Yea! Bowling wins! Score: Bowling 1; Football Zero!

At the end of the regular baseball season, they play the World Series. Bowling has its own World Series which will be held in Las Vegas, October 24-November 6. Who is the favorite? I don't know but I am betting on Kelly Kulick. She has had one fantastic year in bowling. Baseball has other similarities to bowling besides the World Series. It requires special equipment and special shoes, too. In baseball, the ball goes into play at home plate and if it hits outside the foul pole it is out of play. The playing field is unique because of its shape and some ball parks have been known to host bowling events, too. Think October, 2004 – Miller Park – Danny Wiseman wins the USBC Masters Tournament at a baseball stadium. There are 750 MLB players. Score a strike for bowlers! Score: Bowling 2; Baseball Zip!

Another sport that compares to bowling is soccer. It too is a team sport that requires special clothing and shoes as well as its own unique playing field. A soccer ball is similar in size to a bowling ball, both have an average circumference of nearly 27 inches. It is the weight that makes them so different! Soccer balls weigh ounces, while bowling balls are measured by the pound. Soccer players kick the ball and hope it rolls, but bowlers live to see that ball roll and smash those pins! There are 416 MLS players. Score another strike for bowling! Bowling 3; Soccer None!

Basketball is another sport that comes to mind with a lot of similarities to bowling. It is a team sport consisting of five members per team with a captain. They use subs regularly and they wear special clothing as well as shoes which have a special surface, too. The competition is held on hardwood or a synthetic floor and they throw the ball around trying to score. Most bowling centers have synthetic lanes but you can still find some hardwood ones around town. After a break in the summer, the basketball season starts in October and ends in April with each team playing 82 games. Most bowlers take off for the summer and start back in September. The average league bowler rolls 96 games. A basketball is slightly bigger around than a bowling ball and may vary slightly in weight too. I guess it is true what they say that size does not matter. There are 532 NBA players. Bowlers just keep rolling the ball looking for that perfect score! Which brings us to our final score: Bowlers win four!

One more thing...hot off the press! The PBA adopted a rule to use instant replay in nationally televised competition. How can that be you ask? It is rarely needed in competition but issues with fouls and pinfall have created some disputes over the years. There is a foul line judge that carefully monitors pinfall, but there have been situations which occurred making an accurate ruling difficult without closer review. It should be noted that instant replay was used in PBA events previously. In 1999, Parker Bohn was bowling Pete Weber in Austin and it appeared Parker fouled on a spare attempt. During a commercial break, it was reviewed and determined Parker Bohn did indeed foul which negated the spare. However, he did go on to win the title, 225-211. The following week PBA players voted against any future use of instant replay.

NOW, WHO SAYS BOWLING IS NOT A SPORT?

ASSOCIATION MANAGERS ADDRESS

(Delivered by Cheryl Polak at the GHUSBCA Fall Membership Meeting)

Good afternoon everyone. I would like to thank everyone for taking time out of your busy schedules to attend your Fall Membership Meeting. One year ago I stood in front of you and reported that for the first time since the 2006 season our membership had declined by 1,239 members. We know that this was due mostly to the closing of several centers in Houston that resulted in the loss of 72 lane beds. Unfortunately, I must report once again we had a decline for the 2009-2010 season. Our membership stands at 12,894 members; 12,150 adults and 744 youth. But it was a decrease of only 237 members, a 1.8 percent decline. USBC President Darlene Baker and Executive Director, Stu Upson has asked the local associations to focus on increasing memberships and I believe we can. Our association is committed to this. Several members of the association board had the opportunity to talk to leagues at the beginning of this season who were considering not to certify because of the USBC award program last year. The leagues allowed our association representatives the time to explain the many benefits of joining USBC beginning with league bonding, bowling in a USBC certified center, using approved equipment, supporting scholarships for our youth, a member's reward program, and yes, the one thing that is unique to our sport, an award program. After presenting the benefits of certification every league voted to certify again. Headquarters heard the bowlers across the country and this will be the last year for the magnets and next year there will be a new award program introduced from the national level. But please we must remember that our membership dollars are not only about awards, but many other services that insures the integrity of our sport such as standardized rules and the means to enforce them.

The Men's Invitational Championship Tournament was held at Palace Lanes. Derrick Mitchell is our Men's City Champion with a pin fall of 2,155 in All-Events. The Women's Championship Tournament was conducted at Emerald Bowl and City Champion Gretchen Harmon shot a scratch score of 2,181 in All Events. These winners were recognized at our Annual Membership Meeting and received their awards at our Champions Luncheon in April. The Open Championship Tournament was held at Del Mar Lanes and once again the optional virtual doubles were extremely popular. We congratulate the Open winners, who will be recognized later in the meeting. All of our city tournaments saw an increase in teams again this year and of course we want this trend to continue.

The Board of Directors will be introducing some new ideas this coming tournament year in the hopes of increasing participation as well as promoting our local tournaments. We will be alerting the bowlers by hanging banners in the host center promoting the city tournament. Another is presenting the tournament champions with jackets rather than plaques. The tournament committee will be working to develop an award to present to the highest three game series and highest game bowled during each city tournament. Entry forms for the 2011 Women's Championship being held at AMF Diamond Lanes during February and the Men's Invitational Championship Tournament being held at AMF Alpha during March are available today.

The 2011 Texas State USBC Senior Queens Classic and Senior Masters Tournaments will be held in Houston at AMF Alpha Lanes January 29th and 30th. The Bluebonnet Queens and Masters Tournaments are being held at the same center February 26th and 27th. Please spread the word to your fellow bowlers and support your state tournaments. If you have not already done so, pick up an entry before you leave today. Derrick Mitchell and Gretchen Harmon will receive an entry into one of these tournaments as our City Champs.

One thing Greater Houston USBC has is exceptional bowlers. For the 2009-10 Season Greater Houston has not one, but two teams that are being honored on the national level for posting the highest score in the nation in their categories. We congratulate the Rocket Strikers who's series placed them first in the 4-player, under 8 years team series category. Team members, Michael Sartor, Daniel Salinas, Christian Sanders, and Joshua Del Angel, bowled series of 237, 232, 161 and 279 on January 9th this year.

On February 22nd S.I.D.K. series placed first in the 3-Men, 2-Women team series category by bowling series of 718 by Kristy Krol, Sarah Wharton rolled 696, followed by Robert Eason with a 782, Chris Bennett posted a 729 and anchor, Jeff Clark bowled 764. Congratulations to our National Award Receipts and yes, you make us "Houston Proud".

The association has introduced a new local award program this season and we are very excited about it. In talking with some of you, you seem to be excited about it. Starting with an award for 75 pins over average in a single game which is awarded a writing pen. We have re-introduced awards for the 7-10 Split, Big 4 Split, All Spare Game, Triplicate and Dutch 200. The awards are all wooden bowling pins denoting the bowlers accomplishment. The last award that we are introducing is the one I am most excited about; we are presenting the last place team in each league certified this season with the Last Place Champs! award. We are hoping this help to encourage our new and seasoned bowlers alike who end up in last place to keep bowling and to let them know they are appreciated.

We are extremely fortunate to have an outstanding staff at the bowling office to care for your needs; Penny Shannon is my assistant and handles the memberships and leagues; Georgette McNally is our awards coordinator, who filled over 13,000 awards last season, and Sandy Little, who fills the job as our Youth Scholarship Administrator. This is a great Staff and I, along with the Board of Directors, thank you for the job each of you do for our bowlers!

I believe the biggest challenge any local, state or national organization has is in the area of communication. Technology has brought us many avenues to use; websites, email blasts, Facebook, and Twitter. So please visit our website and visit often to keep up

(Continued on page 4)

Association Manager's Address

(Continued from page 3)

with news, tournaments and programs we are offering throughout the year. Also be sure to check out the latest edition of our newsletter, News to Spare. If you haven't been on the website lately, please check out our new look and pages. We are asking everyone to visit the News Blast tab and opt in to receive emails blast from the association. Also, become our fan on Facebook.

The national organization is making great strides in communicating with local and state organizations. This last year they introduced Regional Managers. The Regional Manager over the Houston area is Jim Zeberhazy. We have monthly conference calls with him and we're joined by other state and local managers from different parts of the country. This gives us a platform to share ideas and voice concerns with headquarters. USBC, in Arlington, is forming task forces that include employees of bowling headquarters, proprietors, board members and association managers, from the local and state level. I have had the privilege to participate on two different national task forces. I believe this is a step in the right direction to bridge the gap between the National and Local level, bringing a new trust between the organizations.

To quote a friend of mine, "Friendship is one of the best parts of bowling"!

Happy Thanksgiving.

NATIONAL Wii COMPETITION

The article below was printed in the Houston Chronicle September 22, 2010.

They're organized and competitive with scores regularly in the 200s. Donning T-shirts proclaiming "Happy Rollers" the Wii bowling team at Parkway Place senior-living community is off and rolling in the National Senior League Fall 2010 Wii Bowling Competition, which began Aug. 16. Competition will culminate in a national championship on October 27.

"This is the first time Parkway Place will participate in the national tournament, although we've had an active Wii bowling group for two years," said Rhonda Duncan, director of Life Enrichment at Parkway Place. "When we first learned about the opportunity, the players were very excited."

The tournament was established by the National Senior League, a national Wii competition dedicated to residents of senior-living communities. The national web-based league lets participants compete virtually, without leaving their communities.

Ten weeks of regular season play lead up to the national championship with teams competing weekly against each team in their conference. Scores are turned in weekly. Top teams from each of the eight conferences advance to "Open Bowl" playoffs, followed by a championship web-cast production.

"Our players will be competing against teams from Georgia, Arizona, Pennsylvania, Minnesota, Michigan, Indiana and Idaho", Duncan said, "They are especially enjoying this tournament though Wii sport games are extremely popular year round".

Parkway Place is sponsored by Buckner Retirement Services and offers independent and assisted living, memory care, and skilled nursing.

NATIONAL RECOGNITION ~ 2009-2010 Season

USBC recognizes scores in specific categories for certified competitions from August 1 through July 31 each year. Houston bowlers set two record series for last season. The following series placed first in the two named categories for the 2009-2010 Season. We offer our congratulations for these excellent performances.

CATEGORY—UNDER 8 YEARS OF AGE TEAM SERIES FOR 4 PLAYERS

ROCKET STRIKERS—237—232—161—279 909

Veteran's Day

November 11, 2010

BVL—Bowlers to Veterans Link

It's not what. . . it's who. . . Bowlers throughout America have collected funds and given their time for the nation's wounded and disabled veterans for more than 66 years. Indeed, the Bowlers to Veterans Link (BVL) plays a vital role in the VA Medical Center community, comprised of 173 Department of Veteran's Affairs Medical Centers and 206 Vets Centers, as well as State Veterans Homes throughout the country.

The BVL, founded as the Bowlers Victory Legion, was formed on September 26, 1942 in the midst of World War II when the men and women bowlers of America sought to make life more bearable for the service personnel overseas. These bowlers promised "We will not forget about the sacrifices made by America's service men and women."

BVL's first campaign during WWII raised money to purchase medical evacuation planes to ferry the wounded home from the battle fields of Europe.

BVL supported the dependents of those killed during Operation Desert Storm with academic scholarships for college.

BVL has shipped more than 550 portable carpet bowling lane kits to active duty troops in Iraq, Afghanistan and a host of other locales including to the USS Enterprise and USS Ronald Reagan.

BVL local volunteers not only raise money for America's veterans but also spend countless hours volunteering their time at veterans' facilities - organizing games and events, reading, coordinating bowling programs and much more.

In the month of December GHUSBC Volunteers assemble gift packages for the veterans hospitalized in Houston at the Michael E. DeBakey VA Medical Center. Each year we spend time with each patient in our assigned unit, hopefully bringing a little holiday cheer to them all.

BVL sponsors the tours of the entertainment troupe "Re-Creation," which performs at VA Hospitals and State Veterans Homes around the country. Thursday, October 28, 2010 "Re-Creation" entertained at the hospital in Houston to the delight of the many patients that were able to attend. GHUSBCA provides hospitality for the members of the troupe when they are in our fair city.

Since Veteran's Day is this month, GHUSBC will be collecting for the BVL during leagues the week of November 11. Please be as generous as you have in the past for this worthwhile charity. Donations collected will be sent to the VA Hospital right here at home.

FALL MEMBERSHIP MEETING

(continued from page 1)

you are: Cheryl Polak, Donna Hall, Doris Chesser, Larry Caldwell, Georgette McNally, Lance Thompson, Kendra Hardy, Bette Kelley, Penny Shannon, Thomas Berry, Cindy Berry, Kelly Patterson, and Sandy Little.

Texas State USBC allows a maximum of 5 delegates based on the number of certified bowlers to attend their annual meeting. Elected to represent Greater Houston were: Cheryl Polak, Donna Hall, Doris Chesser, Lance Thompson and Georgette McNally.

The Greater Houston USBC 2011 Annual Meeting is scheduled to take place in the Spring of 2011. We will be recognizing the winners of the GHUSBC Men's Invitational Championship Tournament and the GHUSBC Women's Championship Tournament. Elections will be held for the Board of Directors as follows: Three Officers (1st Vice President, 3rd Vice President and Sgt-at-Arms) and also, there will be ten adult director positions and three youth director positions available. Please mark the date on your calendar now and plan to join us on April 9, 2011. Until then, we'll see you on the lanes!

100 Years Old and Still Bowling

Harry Pepper just turned 100 years old in October and he's still an active bowler. He has been bowling since 1939. He bowls at Palace Lanes in the Friday Senior League. His scores the week at his birthday were 168, 155, and 105 for a 428 series. Pepper doesn't use a 16-pound ball anymore; like a lot of bowlers he has dropped the weight to 12-pounds. He says the "pins still go down if you hit 'em right". He bowled in the Texas State Senior Games last week in the bowling category..

He recently purchased a 2011 luxury automobile and the salesman tried to sell him an extended warranty which would keep him from paying for repairs until 2023. Harry decided to save his money and declined the extended warranty.

SENIOR GAMES—TEXAS STYLE

The Texas State Senior Games were held in Houston October 17 - 31 at various venues around the city. Bowling is just one of the many activities included in this statewide event. Other activities include archery, badminton, basketball, cycling, golf, horseshoes, racquetball, shuffleboard, swimming, table tennis, tennis, track & field events, triathlon, volleyball, billiards, dominoes & 42, fencing, pickle ball, Scrabble, soccer, softball & football throw, Texas Hold 'em and washers. First, second and third place medals were awarded to participants in each event. These events are qualifiers for the National Senior Games Association Event to be held in Houston in 2011. Each medalist earned the right to compete in the National Senior Games next year.

Do you know these gold medal winners in the doubles competition? Be the first to correctly identify both bowlers by calling 713-874-1277. Reward not open to GHUSBCA Board Members or personal friends of the two bowlers.

Harry lives with his girl-friend who is quite a bit younger than he; she's only 85. They have no plans to marry as he feels he is a little old for that.

He was a three-pack a day smoker, but gave that up 60 years ago. He gets up in the morning pain free and eats whatever he wants to. He still has an occasional Crown and Coke, then admitted it was more than just occasional.

Greater Houston USBC provides a newsletter which is printed at least twice each year. It is our goal to provide you with more up-to-date information about the Houston bowling community monthly rather than twice a year. In order to do this, we are asking that you help us by e-mailing noteworthy accomplishments at your bowling center. This can include unusual spare pick-ups, such as the 1-7-10, the 5-7-10, 7-8-9, etc. Things such as a triplicate 112 when the bowler's average is 112, human interest stories, jokes, bowling cartoons, or anything you feel is worth mentioning. We won't promise we will print everything you send but if we feel it is of interest to our readers and with space in mind, we will make every attempt to print it. You may email this information to Newsto-Spare09@aol.com
